SUMMARY

Full Stack MERN & React Native Developer with experience in building responsive apps, API integrations, and modern UI design using React.js, Node.js, MongoDB, Expo, and Tailwind CSS. Quick learner and problem-solver passionate about delivering clean, scalable code.

SKILLS

Frontend: React.js, React Native (Expo, NativeWind), Tailwind CSS, JavaScript (ES6+), TypeScript

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB (Mongoose), Firebase (Auth, Firestore, Storage)

Version Control & Tools: Git, GitHub, Postman, VS Code

Others: API Integration, Mobile App Deployment (Expo), Clean Code Practices

EXPERIENCE

React & React Native Developer Intern | Chord Technology, Pune (May 2025 –Present)

- Worked on both web and mobile applications using **React.js** and **React Native (Expo + NativeWind)**
- **Built** a cross-platform coaching app using **React Native (Expo)** with **real-time attendance**, **daily notices**, **QR fee payments**, and **role-based dashboards** for teachers and students

PROJECTS

Huddle – A Social Media Web App

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Socket.IO, Cloudinary

- Built a **full-stack social media app** with **real-time chat (Socket.IO)**, **JWT authentication**, and **dynamic user profiles**
- Integrated **Cloudinary** for **media uploads**, implemented a **badge system**, and built a **responsive UI** with **Tailwind CSS** and **RESTful APIs**

Muxicly – Music Player Web App

Tech Stack: MERN Stack (React.js, Node.js, Express.js, MongoDB), Tailwind CSS, Git, GitHub

- Built a **full-stack music streaming app** with separate **admin and user panels**, featuring **playlist browsing**, **play/pause/seek controls**, and a **responsive UI**
- Designed using **React.js & Tailwind CSS**, with backend powered by **Node.js & MongoDB**, and version control via **Git/GitHub**

EDUCATION

- **Bachelor of Computer Application** – Tilak Maharashtra Vidyapeeth 2022-25
